

Delaunay Triangulation

Construction

- Subtended Arc

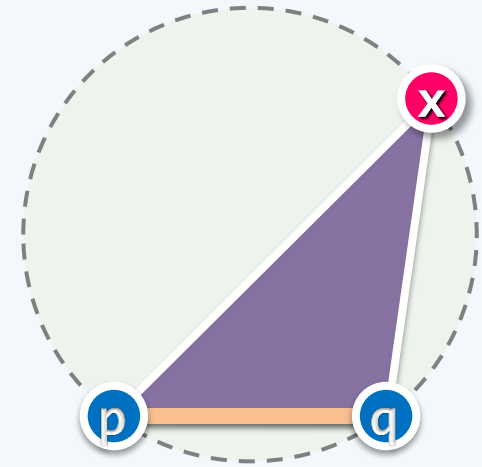

Junhui DENG

deng@tsinghua.edu.cn

❖ Let pq be a chord of a circle C in the plane

Then pq subtends a **same** angle

at any point x on C to the same side of pq

❖ Let y/z be lying **interior**/**exterior** to C ,

both left to pq

Then pq subtends

a **larger** angle at y than at z
