

# **Delaunay Triangulation**

**RIC With Example**

**- Convergence**

**Junhui DENG**

**deng@tsinghua.edu.cn**

## Convergence Guaranteed?

❖ Yes! Note that ...

- The **angle sequence** keeps **increasing** during its evolution

❖ How many flips for each new point?

- at worst  $O(n)$  & averagely  $O(1)$  !
