Voronoi Diagram

DCEL

- Half-Edge

θ4-F-θ2

Junhui DENG

deng@tsinghua.edu.cn

❖ **For each half-edge, DCEL stores**

    id   //identifier

    twin //reference to twin half-edge

    ori   //reference to origin vertex

    inc   //reference to left

            //incident face

    pred //reference to CCW

            //previous half-edge

    succ //reference to CCW

            //next half-edge
